

## Principles of Risk Management

### *Course Outline*

Full day – 9.30am – 4.30pm

This course will look at the emergence of risk management and consider where risk management sits within your organisation. The following areas will be covered:

- Emergence of Risk Management
- Risk Management standards
- What is Risk? What is Risk Management?
- Types of risk including the upside and downside of risk

We will consider your organisations strategic objectives and work through the following steps to ensure you leave with some practical tips on how to develop a Risk Management framework within your organisation:

- Risk identification
- Risk assessment
- Risk reporting including communicating at all levels
- Risk control

Other essential components to managing risk effectively will be discussed including managing change, facilitation and presentation skills.

*All of our courses are tailored to suit an organisation's individual training needs.*
